

NEW JAP SNARL INVITED BY THE 'FRISCO POLICE

Renewal of Licenses for Intelligence Offices Denied to Orientals.

ARE ONLY FOR CITIZENS.

Suggestion Made that Matter Be Taken to the Courts for a Test.

SAN FRANCISCO, June 28.—The Board of Police Commissioners yesterday denied the application of five Japanese for the privilege of renewing their permits to keep intelligence offices in this city, and refused two Japanese applicants who desired to obtain new permits for the same business, on the ground that the applicants were not citizens of the United States.

It was explained that the policy of the Board had been always to give the preference in these privileges to citizens over those who are not and cannot become citizens.

It had been urged on behalf of the petitioners that they were entitled to the privilege by virtue of the provisions of the treaty, but the police commission contends that if such right does exist, it is still subject to laws enacted under the general police powers of the State concerning police and sanitary regulations. A refusal to grant such permits is not, according to the commission, a violation of the treaty.

President Hagerly, in giving the decision of the board, said that it was the policy of the board to grant such permits only to citizens of the United States and not to citizens of foreign countries. He suggested that the refusal to grant these permits would open the way for a determination in court of the extent of the rights of Japanese in this respect under the treaty between the United States and Japan, should the applicants desire to take the matter into the courts.

MISSIONARY FROM JAPAN WARNS.

SAN FRANCISCO, June 28.—Rev. Henry C. Mable, general secretary of the American Baptist Mission Union, who arrived on the Korea yesterday, had been on a four months' tour of the Orient, inspecting the mission stations. He gave careful study to the Japanese question, and says that Americans should be warned against underestimating Japan's strength.

"They have a standing army of a million men," he said, "and their drill work is not the performance of perfunctory evolutions. They go at it in the greatest earnestness. Every day of their lives they are put through the gait exercises, and the result is a stocky, strong set of men, as quick as cut and trim as the English Tommy Atkins ever was."

"No nation can afford to hold the Japanese efficiency or valor in contempt. Japan is prepared, if need be, to defend her honor and dignity before the world in a crisis comes. There is an increasing feeling beneath the surface of uneasiness and sensitiveness in regard to our immigration policy and the treatment of her subjects."

YOUNG WOMAN HAS POLICE GUESSING

Left Bag Containing Diamond Ring at Station and Disappeared.

A young woman who left a chestnut bag, containing a diamond ring, a small parcel, and cards bearing the name Miss Nina Sutton, with Train Starter Cox at the Erie station in Jersey City, Wednesday evening, has not returned for her property. The police are working on the case.

She appeared nervous, and the railroad men, suspecting she might have committed suicide, dragged the ferry slips. No one observed in which direction she left. She is thought to have arrived at the station from New York. She appeared to be waiting for a train.

Sister Agnes, of the St. Joseph's Orphan's Home, in York street, noticed that the young woman appeared to be in trouble in the waiting-room, and spoke to her. Sister Agnes said:

"The only thing I know about the young woman is that she acted very nervously. I advised her to go to St. Francis's Hospital and have a rest. I thought she would go there. She was well groomed and evidently well educated."

No inquiries for any missing young woman have been received at the station. It is therefore thought she went home, forgetting her valuables in the rush for her train.

DRESSER CHILDREN MAY GO TO EUROPE

Court Refused to Enjoin Suing Wife From Trip Abroad.

Mrs. Daniel Le Roy Dresser may accept her uncle's invitation to spend the summer with her two children on his English estate. As he intimated on the argument of the motion of her husband for a injunction restraining her from taking the children out of this jurisdiction pending the trial of her suit for a separation, Justice Blanchard refused to-day to "imprison" Mrs. Dresser and the children in this city during the summer.

Justice Blanchard to-day denied the application of Dresser for a restraining order.

Wealthy Man Tells Police He Has Received Three Threatening Letters.

Daniel Wendell, seventy-six years old, a civil war veteran and a heavy owner of Staten Island real estate, to-day went to the Stapleton police station and asked for a permit to carry a revolver. He stated that within the last two days he had received three Black Hand letters ordering him to leave town or prepare to die. He said that he recently sold land to Italians, and that last week notice had been served on them that streets were to be cut through the property they bought, slicing off edges of it. Wendell said that he did not intend to leave his home at Concord.

COPPER THIEVES STRIP SALOONS OF FAUCETS.

Four Youths Arrested After Two Thirst Parlors Were Flooded With Beer.

Lead-pipe and copper thieves have been dislodged with the comparatively meagre pickings of an empty house, and are now seeking fatter fields.

William Carroll, seventeen years old, of No. 61 Morris avenue; James Shields, eighteen, of No. 346 East One Hundred and Forty-eighth street; John Hickey, twenty, of No. 62 East One Hundred and Forty-second street, and Charles Washington, colored, of No. 66 East One Hundred and Forty-fourth street, were to-day arraigned in Morristown Court, charged with stripping the copper faucets and lead-pipe fixtures from the saloons of Vincent Sinamore, No. 28 East One Hundred and Forty-eighth street, and Nicholas Menke, No. 63 Morris avenue.

The two saloon-keepers found their barrooms flooded with beer yesterday morning. The removal of the beer faucets had caused that flooding of the places. Detective Delia, Brown and O'Connor gathered the four youths in on a tip.

CHAUFFEURS HEED POLICE SEMAPHORE

When a Cop's White Glove Says "Stop," Bad Brakes Won't Excuse.

Anything that walks or rides must come to a halt when the white-gloved hand of the policeman is extended as a signal to come to a standstill. This was the ruling of a Magistrate to-day. William Duane was charged in the Yorkville Court with failure to obey Policemen Galbraith's command to halt at Fifty-seventh street and Fifth avenue yesterday afternoon. The policeman was escorting a woman and child across the street, when Duane's rapidly moving automobile bore down upon them. Galbraith picked the child up in his arms and got between the mother and the car, meantime raising his hand to the chauffeur to stop.

Duane did not stop. The officer just escaped being struck by the machine. Seeing the mother and child in safety, he started after the driver and got him two blocks away. He charged him with violation of the traffic laws.

Before Magistrate Barlow, Duane pleaded that his brakes would not work and that he could not stop. "No excuse," shouted the angry Magistrate. "A machine without brakes is a bad thing. If you auto men don't control your cars then you ought to be put out of business. I'll suspend sentence this time, but always bear in mind that an officer's hand raised means 'stop.'"

PROSPERED; TRIED TO DIE.

Former Brooklyn Woman, Parted from Husband, Shoots Himself.

Mrs. Emily T. Cauldwell, of Riverhead, L. I., shot herself last evening and the bullet lodged in the brain tissue. She was put on board a late train and sent to the Seney Hospital, in Brooklyn. Her chances of recovery are slight.

Mrs. Cauldwell used to live in Brooklyn. Four or five years ago she separated from her husband and had been living in Riverhead with her sister, Mrs. Irene Young. She was engaged in the dressmaking business and was doing well. She seemed in good spirits. Last evening she called to her sister that she was going to shoot herself, and suited the action to the word.
